

# EXPORTING DIGITAL DATA FROM MYJOHNDEERE®

Sign in to [www.myjohndeere.com](http://www.myjohndeere.com) and select "Operations Center".

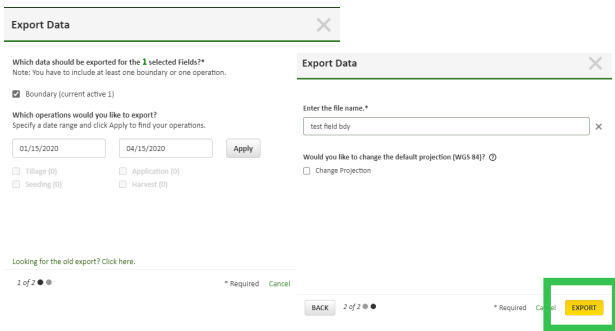

Select the Fields icon and then the Sidebar menu.

Select checkbox next to Name.

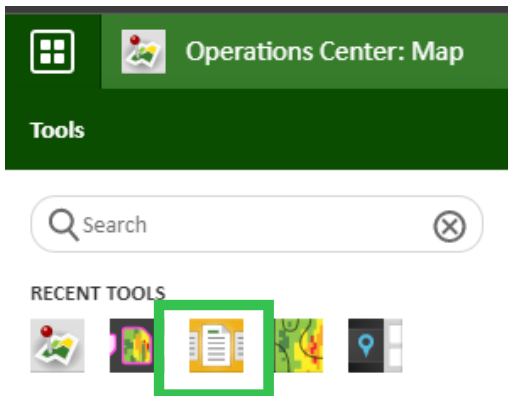

Select the field(s) you would like to export by clicking its selection in the box.

Then, click the Export icon.

In the export window, select desired type of data to export. Enter the file name with your name and click "Export".

Select the tools tab.

This will then take you to the tools page and then you can click the "Files" icon.

Select the file you would like to export.

Select the download icon and it will export as a .zip file.

Upload this zipped file to the Portal.
