

Log In to portal:
<https://in10t.solutions>

Select your appropriate trial from the drop down menu.

Select "Additional Information" to see a list of resources and documents about this trial.

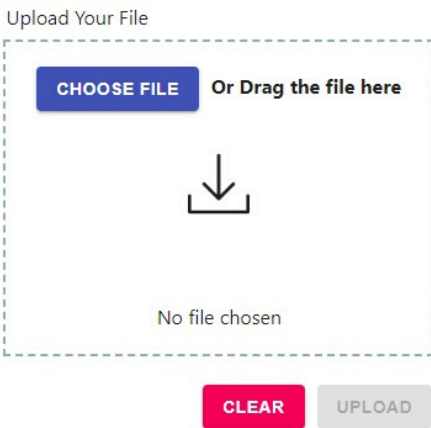

Select the appropriate file type.

Create a new field by clicking "+" or select an existing field from the drop down.

File type and field name is mandatory to upload a file.

Include notes associated with field observations.

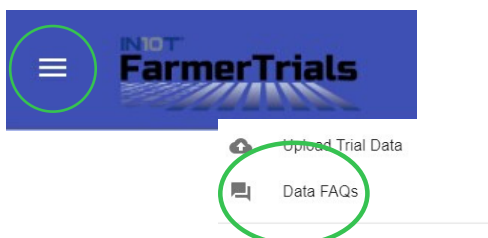

Drag and drop a file or click "choose file".

You can upload any type of file for boundary type, but planting, as-applied, and harvest need to be a zipped file.

Upon completion of upload, file will be visible under "Uploaded Data".

FILE NAME	FIELD	FILE SIZE	TYPE	DATE -	NOTES
boundary.zip	Test Field	3051	boundary	3/31/2020	VIEW

For additional help exporting data from your monitor, please reference the data FAQs found in the top left corner.
