**Select your appropriate trial from the drop down menu.**

Select "Additional Information" to see a list of resources and documents to support your trial.

**Select the appropriate file type.**

**Create a new field by clicking "+" or select an existing field from the drop down.**

File type and field name is mandatory to upload a file.

**Complete any required field characteristics and notes associated with the data upload.**

**Drag and drop a file or click "choose file".**

You can upload any type of file for boundary type, but planting, as-applied, and harvest need to be a zipped file.

Visit the Resources tab on FarmerTrials.com for instructions on how to zip a file.

**Upon completion of upload, file will be visible under "Uploaded Data".**
