

## SUMMER AGRONOMY INTERN

INIOT is committed to positively impacting ag innovation - Solving the agribusiness challenges of today and in the future by collaborating with farmers. With differentiation in data analytics and a strong farmer network, we are a rapidly growing business. Every summer, we put out product trials on farms across the Midwest, and we are looking for a summer intern to help us manage some of our trial locations.

### Essential Job Duties

- Visit and manage field trials
- Travelling 2-4 days a week to complete on-farm field visits
- Complete necessary in-field tasks
- Farmer communication and relationship management
- Data collection assistance
- The hours will fluctuate depending on the number of visits each week.

### Ideal Candidate

- A student with an agriculture background or major
- An entrepreneurial minded individual who is interested in cutting edge products and technology
- An individual willing to travel weekly to different farm locations
- A team player who enjoys working in a collaborative environment
- Comfortable working independent and remote
- A self-starter who is able to work on different projects and tasks simultaneously

### Minimum Qualifications

- Past Agriculture Experience
- An Agriculture focused major (preferred)
- Based in Minnesota, Iowa, or South Dakota
- Driver's License
