Important: Complete New Field Step before connecting to MyJohnDeere

New Field Step: Add a field to a trial or trials

Select **Add to Trial** for a new or existing field, pop up will display with trials available to the grower.

Add Field To Trial

Trial

2022 Trial
2022 Demo
2022 Commercial

A field can be added to multiple trials.

To transfer data, field must be assigned to trial.

Once field is assigned to a trial, feel free to connect MyJohnDeere

Optional: Disconnect Fields

Select **Disconnect Field** from MyJohnDeere field dropdown to remove individual field connections.

Field Name	MyJohnDeere Field		Active Trial	Add To Trial
JD Field 1	MyJohnDeere Field Test 1	REMOVE	2022 Commercial	ADD TO TRIAL
Jd Field 2	MyJohnDeere Field		none	ADD TO TRIAL
Jd Field 3	MyJohnDeere Field		none	ADD TO TRIAL

ADD NEW FIELD

Rows per page: 10 1-3 of 3 < >

Note: All data files that have been uploaded will remain on that field

Quick Tips:

- Organization can be switched if you have multiple organizations
- Fields can only be mapped 1 to 1
- Daily file sync
- Field must be assigned to trial for data to display in portal
- Currently not pulling in Boundary File
- Can disconnect all or single fields on MyJohnDeere page
- Logout of MyJohnDeere -This will disconnect any fields that are connected, All data files that have been uploaded will remain on field. New files will no longer be received.
